No Plastic Today

FOR CLASSROOMS

Only 9% of the world's plastic waste was recycled in 2019.

That is why “use less” beats “recycle more”.

Three things our class can do

1. **Bring a refillable bottle.**
   One bottle used every day replaces hundreds of plastic bottles a year.

2. **Pack a lunchbox, not wrap.**
   A steel lunchbox replaces cling film, zip bags and plastic cutlery for years.

3. **Count it for a week.**
   Run the Classroom Plastic Audit, swap three things, then count again.

Free ideas, tools and the evidence behind every number.
